

Jannis G. Stavrianopoulos et al.

Serial No. 10/763,102

Filed: January 22, 2004

Page - 3 - (Reply to Office Action and Request for Five Month Extension of Time)

REMARKS

The outstanding Office Action requires that Applicants elect one of the following two (2) inventions:

- I. Claims 287-318, drawn to a labeled target and labeled reagent comprising a backbone having at least one rigid group (a), (b), (c), classified in class 536, subclass 26.6.
- II. Claims 319-362, drawn to a labeled target and labeled reagent comprising a backbone comprising at least two consecutive polar rigid units. classified in class 536, subclass 26.6.

Applicants hereby provisionally elect Invention II, which covers claims 319-362, drawn to a labeled target and labeled reagent comprising at least two consecutive polar rigid units. Applicants expressly reserve the right to file divisional application(s) directed to the non-elected invention as identified in the Office Action.

Respectfully submitted,

Natalie Bogdanos
